ABOUT ME

Fourth-year Computer Engineering student building applications with C#/.NET. Developed a personal project, Student Planner, a WPF desktop app with SQLite, multithreading, and asynchronous operations. Completed a project-based internship at Freshcode Training Center. Comfortable with SQL, SQLite, and PostgreSQL, and use Git/GitHub daily. Currently expanding into web development (ASP.NET Core, Blazor) for a university database design project. Looking for a Trainee/Junior C#/.NET Developer role to grow under an experienced team and gain first commercial experience.

EDUCATION

Kryvyi Rih National University

Bachelor's in Computer Engineering, specialty 123 · 2023 – Present (4th year)

PROJECTS

CinemaSystem (ongoing)

PostgreSQL, ASP.NET Core, EF Core, Blazor Server, SignalR | [GitHub: CinemaSystem](#)

- Designing and building a PostgreSQL database for a university course project
- Developing the application layer as a web app using ASP.NET Core and Blazor Server
- Using SignalR for real-time updates (seat-booking scenario)
- Learning new web development technologies as part of the project

Student Planner

C#, .NET 8, WPF, XAML, SQLite | [GitHub: MultiThreadedStudyPlanner](#)

- Built a desktop application for planning and monitoring student study activity
- Implemented multithreaded processing and asynchronous operations
- Built the database layer with CRUD operations and local SQLite storage
- Implemented task/deadline/subtask planning, a Pomodoro timer, and productivity statistics
- Used Git and GitHub for version control

EXPERIENCE

Internship — Freshcode Training Center

- Completed a project-based technology internship
- Learned Git for collaborative version control
- Gained practical experience in web markup (HTML/CSS)

TECHNICAL SKILLS

- Programming Language & Frameworks: C#, .NET 8, WPF, ADO.NET, ASP.NET Core, Blazor Server (in progress)
- Databases: SQL, SQLite, PostgreSQL
- Concurrency: multithreading, async/await, thread synchronization
- Developer Tools: Git, GitHub, Visual Studio, Docker, Jenkins
- Other: OOP design, networking (sockets, WCF), SignalR (in progress)

LANGUAGES

- Ukrainian — Native
- English — Pre-Intermediate (B1)
